

# AD 2000 - Merkblatt

Author: <>

New modules available for AD2000

The AD2000 module now includes the following sections:

- B 1 – Cylindrical and spherical shells under internal pressure
- B 2 – Conical shells under internal and external pressure
- B 3 – Dished ends under internal and external pressure
- B 5 – Welded and bolted flat ends
- B 6 – Cylindrical shells under external pressure (including stiffener rings)
- B 8 – Flanges (EN1591)
- B 9 – Openings and nozzles in cylindrical, conical and spherical shells
- B 10 – Thick walled cylindrical shells under internal pressure

- S 3/1 – Skirt support
- S 3/2 – Horizontal vessels on saddle support
- S 3/4 – Bracket and leg support for vertical vessels

Additional modules are beeing added.
